Kaggle : Age group classification

https://www.kaggle.com/c/ncu2020aihw1/

Each team will be graded by the following materials:

1. The name of your team in Kaggle and the Kaggle ranking (i.e. score) of your submission.
2. Your source code and the script(s) (if any).
3. A short report (2~3 pages) – describing the key concepts of data pre-processing, model, the code, and model training. At the end of the report, please specify the jobs each teammate is in charge of.
   - Template for report submission: IEEE conference format
   - The report can be written in Chinese or English
4. 10/2 submit the labeled file (excel) and calculate the kappa value.

Please zip all these items into a zip file and then upload to ee-class before the midnight of 10/29/2020.
